

ANANT CHAVAN

+91 7387362524 ◊ Nashik, Maharashtra, India

aschavan13914112@gmail.com ◊ [LinkedIn](#).

EDUCATION

K.K.Wagh Institute of Engineering, Education And Research, Nashik

Bachelor of Engineering in Artificial Intelligence and Data Science

2021 - 2025

Alfred Gadney H.S Junior College, Dapoli, Ratnagiri

HSC in PCMB

2019 - 2021

SKILLS

Languages

C++, C#, Python, HTML, CSS, Javascript, SQL

Frameworks & Libraries

React.js, .NET Framework, ASP.NET, MongoDB

Tools and Technologies

Gazebo, ROS, Pandas, Numpy, Tensorflow, MS Excel, Figma, Canva, Git, PowerBI

EXPERIENCE

Web Dev Intern

Dec 2023 - Jan 2023

Emerging Technologies

Nashik

- Worked on an interns portal where interns can report their work by developing an interns website, admin panel as well as desktop portal by the use of HTML, CSS, JS, ASP.Net Web Forms and .NET Framework

PROJECTS

Instagram Clone.

-An instagram profile clone page by the use of HTML, CSS (**10/2022 - 10/2022**)

Google Drive Clone

-A Google Drive Clone by the use of HTML, CSS and JS

Google WorkSheet Clone

-A Google WorkSheet Clone by the use of HTML, CSS and JS

Cellular Automaton Models

-Implemented 3 Cellular Automaton models by the use of SFML graphics library in C++

-The models being namely Conway's Game of Life, Predator vs Prey and Langton's Ants

PID Flight System for Drone

-Implemented a PID Flight System for Gazebo Simulated Drone by the use of ROS1 and Python during EYantra

-Flight System later developed for Raspberry Pi Zero based Drone by use of Ros2 Foxy

Internship Dashboard and Portal Website

-Developed an internship dashboard website featuring the company, login, admin panel by use of HTML, CSS, JS, ASP.Net Webforms as well as .NET Framework for Desktop application

EXTRA-CURRICULAR ACTIVITIES

- **Elite Club**

Mar 2022 - April 2022

-Club conducts social activities like clean up drives, resource provision drives to the under-privileged, event management.

PARTICIPATION

- **Code-o-Fiesta 22** Sept 2022 - Sept 2022
-Participant in Code-O-Fiesta Competition conducted by Debuggers Club
- **eYantra 23** Aug 2023 - Aug 2024
-Annual Robotics Competition held by IIT Bombay
-Tasked with developing an autonomous flight system for a Raspberry Pi Zero based Swift Drone in Luminosity Drone Theme
-Programmed and implemented PID controller for Gazebo Simulation drone as well as physical drone by the use of ROS1 and ROS2 Foxy
-Reached second stage
- **IdeaSpark** April 2024 - April 2024
-An idea pitch competition organized by Microsoft Learn Student Club
-Pitched a full-fledged modular IOT-based based wild-life detection detection system, making use of Raspbery Pi Zero 2, Machine Learning Model trained on YOLO leopard dataset.
- **eYantra 24** Aug 2024 - Feb 2025
-Participant of current year as of present
-Tasked with developing a self-balancing equilibrium system bot.

CERTIFICATIONS

- **DevTown**
-Instagram Clone using HTML & CSS 7 Days Workshop Oct 2022
-Machine Learning 7 Days Workshop Oct 2022
-C++ Data Structures and Algorithms Workshop Oct 2022
-Google Drive Clone using HTML & Material CSS 7 Days Workshop Nov 2022
- **logicwaves**
-Developing Google WorkSheet Clone Sept 2023
- **EXCELR**
-Advanced Excel, PowerBI and Tableau Oct 2023
- **International Level Student Workshop - 2k24**
-Data Science using Python Mar 2024
- **eYantra 23**
-Letter of participation May 2024
